

T1 ProCore™

THE PERFECT COMBINATION OF INNOVATION AND EFFICIENCY

- 50 litres/hour of chilled, ambient and sparkling water
- Makes refilled reusable bottles fast and convenient
- The integrated tap system can be positioned over a sink or combined with a stylish circular drip tray
- A discreet, ergonomic touch panel, designed for ease of use
- Antimicrobial technology for a reassuringly hygienic experience
- Tap is PVD coated for a high-end yet durable finish
- The plug-and-play USB 3 connector makes this tap super easy to install.
- The T1 is consistently energy efficient, making it both economical and eco-friendly
